

# FirstNet CLOUD PROTECTION

Protecting your desktop, laptop and server infrastructure does not require complex configuration tasks, management or costly server infrastructure. Simplify your business, reduce costs and improve security.

## What is Cloud Protection?

It is a lightweight, easy to use, secure, endpoint protection solution that provides constant, robust, real-time protection for desktops, laptops and servers. The solution is managed from a simple, intuitive web console, enabling centralized management anytime and from anywhere.

## Solution Highlights

**Centralized management** – Intuitive cloud-based central management console allows you to control your endpoints from anywhere.

**Rapid Deployment** - Deploy the protection in just a matter of minutes with flexible deployment options such as sending a download URL by email, distribution tool, or using an MSI installer to deploy the protection with third-party software. The installation intelligently uninstalls existing Anti-virus and firewall clients that are supported.

**Real-time monitoring and reports** – Gain immediate insight to your security status from the central management console.

**Peer-2-Peer updates** – Endpoint clients utilise peer-2-peer technology to update definitions or upgrade from the nearest computer on the network, effectively reducing bandwidth consumption and improving efficiencies.

## Features

- Anti-Virus
- Firewall
- Anti-malware
- Anti-spyware
- Web Monitoring and filtering\*
- Microsoft Exchange e-mail scanning\*\*
- Device Control\*\*\*

\* Available in McAfee SaaS Endpoint Protection and Panda Cloud Office Protect Advanced

\*\* Available in Panda Cloud Office Protect Advanced)

\*\*\* Available in Panda Cloud Office Protect and Panda Cloud Office Protect Advanced)

## Benefits to your Business

- Maximize security control – Ensures computers are protected and monitored from anywhere.
- Reduces IT admin overhead by simplifying Endpoint security management.
- Predictable costs – Software maintenance is included in this monthly subscription providing a predictable cost model with no annual renewal expenses.
- No hardware costs for servers
- Software updates are automated and requires no administration.
- Reduce Total Cost of Ownership (TCO)
- Flexible consumption based billing

Protection Options	No of Computers						
	1-10	11-50	51-100	101-200	201-500	500+	Once off
Cloud Protection Powered by McAfee (per computer)	R 15.00	R 14.00	R 13.50	R 13.00	R 12.50	R 12.00	R 600.00
Cloud Protection Powered by Panda (per computer)	R 22.00	R 21.00	R 20.00	R 19.50	R 19.25	R 19.00	R 600.00
Cloud Protection Advanced Powered by Panda (per computer)	R 2600	R 25.00	R 24.50	R 24.25	R 24.00	R 23.50	R 600.00
